Where Comfort Meets Innovation

PRODUCT SHEET

BT-PC-26R

Industrial Portable Evaporative Air Cooler

Features

- High quality Honeycomb Pads for high water absorption & Optimal cooling.
- High quality, sealed & 100% copper wired Motor.
- UV Stabilizer Engineering Plastic.
- Strong Nylon 3 Blades propeller dynamically balanced for Optimal Airflow & Low Noise.
- Mechanical Water Inlet & Manual Water Inlet.
- Digital LCD Controller.
- Automatic Left/Right and Manual Up/Down Swing Features for Covering large Area.
- Heavy-duty & Locking Brake 4 Caster Wheels for Easy Move and Settle.
- High-density Pre-dust Filter for Capturing Large Particles such as Dust, Lint, Organic Material, Insects, etc.
- Large Water-reservoir to run cooler whole day in single Refilling.
- Water level sensor to protect water pump when cooler is out of water.

The BT-PC-26R commercial and industrial portable evaporative air cooler with their various functions in one unit.
Our BT-PC-26R commercial and Industrial portable evaporative air cooler can be use indoor and outdoor areas.
Since these air coolers are portable, with strong wheels & brakes, you can easily move them from one room to another.

The BT-PC-26R commercial and industrial portable evaporative air cooler can be used as an air cooler, air purifier, fan, and humidifier. It can also purify the air and make it clean.
It can improve the air quality by removing pathogens from the environment. The air of the area becomes healthy and free from airborne diseases.

BT-PC-26R

Industrial Portable Evaporative Air Cooler

Technical Specifications

Product Code	BT-PC-26R
Airflow	26000m³/h
Voltage	220-240V
Power	2000W
Covering Area	200-300m²
Water Tank	0L
Noise	60dbA
Frequency	50Hz
Fan Speed	3 Speeds
Outer Body	ABS Plastic
Pre-dust Filter	Yes
Controller	Manual Knob
Dimension	0x0x0mm
Weight	0Kg
Origin	China

Applications

Factory   Warehouse   Pasture   Education   Activities

Airflow Distance
